Foster,

Thank you for circulating Parks Canada on the above noted application for the demolition and new residential construction, partially located within the 30m development setback/buffer zone of the Rideau NHS/WHS. Given that the proposal has been designed so as to increase the setback from the water than the existing dwelling (+5m), while avoiding the removal of existing mature vegetation, and maintaining and enhancing shoreline vegetation, PCA does not have concerns with the proposal.

Sincerely

Susan Millar, BComm, MSc
