Subject: Integrity Commissioners Report

To whom it may concern,

With respect to the August 12th decision by council to not bring forward the Integrity Commissioner's Report to the September 3rd meeting for open discussion, contrary to the requirements of the Municipal Act, please accept this as my response to the matter.

The report must be brought forward as per the Municipal Act and I am requesting it be done so as soon as possible.

I am disturbed by the actions of council members who do not feel the need to follow clear legal requirements.

Regards

Michael Cox
